
cognitive psychology articles Cognitive psychology

Posted by Jussi Nissinen - 2009/09/08 17:42

Anyone knows articles about how cognitive psychotherapy / methods are used in supporting gays/lesbians/bisexuals in overcoming different problems (identity, internalized heterosexism, alcohol/drug abuse etc)? I am interested in translating articles to a Finnish text-book about cognitive methods (of course only with the permission of the author).
