5 Myths About Health Care Around the World The United States is the only developed country that lets insurance companies profit from basic health coverage. By T.R. Reid Sunday, August 23, 2009
http://www.washingtonpost.com/wp-dyn/content/article/2009/08/21/AR200... 1778.html
(http://www.washingtonpost.com/wp-dyn/content/article/2009/08/21/AR200...) As Americans search for the cure to what ails our health-care system, we've overlooked an invaluable source of ideas and solutions: the rest of the world. All the other industrialized democracies have faced problems like ours, yet they've found ways to cover everybody
