It is when we have a sense of belonging that we become healthier (hungrier) than ever. The lot is cast into the lap, but its every decision is from the LORD. (Proverbs 16:33) Amen. A Spirit-guided exegesis of Proverbs 16:33 ...
<http://groups.google.com/group/sci.med.cardiology/msg/085dcffcafb7e4e2?> Nothing happens by chance because everything happens only as GOD allows it (Ecclesiastes 9:11):
<http://groups.google.com/group/sci.med.cardiology/msg/21527d1832960109?> Sign that GOD can easily unleash an H5N1 Pandemic at any time: <http://groups.google.com/group/sci.med.cardiology/msg/a4581567229974c0?> What we are teaching to prepare folks in our local communities for the probable eventuality of a deadlier Pan-Flu:

<http://T3WiJ.com> May dear neighbors, friends, and brethren have a blessedly wonderful 2009th year since the birth of our LORD Jesus Christ as our Messiah, the Son of Man by being hungrier:
<http://groups.google.com/group/sci.med.cardiology/msg/f891e617d10bd689?> Hunger is wonderful !!! It's how we know the answer to the question What does Jesus want? (WDJW): <http://WDJW.net> Yes, hunger is our knowledge of good versus evil that Adam and Eve paid for with their and our immortal lives:
<http://groups.google.com/group/sci.med.cardiology/msg/52a3db8576495806?> Hunger is the physical hearts burning within us feeling that unlocks the 4 mysteries of the Road to Emmaus adventure described in Luke 24:

May GOD give you, H.O., a new heart and a new spirit (Ezekiel 11:19-20 and 36:26) so that you would be born again of water and Spirit (John 3:3 and 3:5) so that you would come to trust the truth, Who is Jesus: To harrass other people by using religion as a means of rheoric warfare is a crime. Asking GOD to give you eternal life (John 3:16) is neither harrassment nor warfare. So if a truck rolls over Andrew B. Chung, that is a good deed and planned by god? Without the LORD, your fantasies are meaningless (Ecclesiastes) That is bullshit. Incorrect. This is a written prayer. Like other murderous stuff in the bible? What is written in the Bible is that GOD commands us to not murder: You shall not murder.

Andrew Chung: Is a frequent and proven liar (evidence archived forever on Google) Has lost numerous NNTP accounts with supernews and others, has had many Google accounts nuked, and his vanity domain heartmdphd.com is now banned from setting up accounts. He is instead using multiple Google sock accounts and email addresses in the format lo...@thetruth.com (# being a number) Is unemployed after being sacked with cause from his one and only job after just over 80 days Fled the state of Florida, and now claims to practice in Georgia despite having no admission priveliges in the State's hospitals Runs a phony foundation with a total declared income of circa \$200, the ownership and contact details of which are obfuscated on its website Makes failed prophecies concerning earthquakes with areas

and dates, which don't happen (remember the bible quotes about false prophets) Performed a public attempt at 'exorcising' a Malaysian sock on usenet, then denied doing it. He has recently reversed position again and admits to practicing exorcism by usenet, proving himself a liar in the process. Promotes a dangerous diet, with a million dollar guarantee that he demands thirty dollars to access details of. This despite being unemployed. His soliciting and spamming for donations looks to be similar to the Nigerian Advance Fee Fraud, where victims pay money upfront in the hope of coming into riches but find they have merely bought into a lie. Part of his advice is to pour nail polish remover onto food. Declares he has a cardiology practice despite posting night and day from the same IP address (his home presumably) or a coffee shop internet cafe Makes further false prophecies that we should now be all dying in a bird flu pandemic. When these fail to happen, he does them all over again and changes the dates. Nuclear war is another Chung speciality, which naturally doesn't happen when he says it is going to. Worships evil hatemonger Fred Phelps and will not denounce the acts of Westboro's congregation. He even accuses someone with the name Phelps of being Fred's son and refuses to accept he is completely wrong. Uses the same patten as Pat Robertson, indicating his religious activity is confined to watching cable TV. No evidence Chung has ever attended a church. Has a tendency to cyberstalk, particularly women. His wife fled some time ago to another state, an act which Chung tries to pass off as being on vacation. Frequently passes himself off as being qualified in areas such as endocrinology, despite making incredibly fundamental blunders in his 'advice'. It is no wonder the Florida heart facility terminated him, and has publicly denounced his version of events. Again archived on Google. Don't forget the fake fast, where he didn't lose any weight, as well as the infamous 666 stamping fiasco. His latest vile trick is spamming the blogs of dying cancer patients and then crowing triumphantly when they pass away.

So this is the excuse for ANY mass murder. The murderers only have to claim that they kill in god's order. Ath the very same time these hatred seeding monsters describe themselves as <quote Being truly nice (WDJW) and praying for xyz's perishing soul. </quote And that That is total insanity on two legs. Can you, in your wildest fantasy, imagine ANYONE who would accept medical treatment for anything more serious than a wooden splinter from Doc Chung ?

Can you, in your wildest fantasy, imagine ANYONE who would accept medical treatment for anything more serious than a wooden splinter from Doc Chung ? Some people are far more away than you ever could imagine. They even die by rotting to their bones - so much they believe the lies of criminals like Ryke Geerd Hamer and his followers. <http://www.deathsect.com> If these people kill themselves - no objection. But they kill their children and all within their reach who cannot defend themselves. And, and this is the most crucial part, some of the doers are medical doctors. The German medical chambers do not expel such persons and they do not take care that the doers are taken off their medical license. The medical chambers AND the legal system in Germany are part of that plot. It is a nationwide crime. Hundreds of people already died an utmost cruel death. I found 150 dead so far, but the real figure is at least 2x -3x as high. If you want to see what this murderous system does, look at these pictures: <http://www.ariplex.com/ama/amamiche.htm> But beware: these are very graphic pictures. They show Michaela Jakubczyk-Eckert, who died in november 2005. The web-page is the obituary for her.
