---

Counseling Psychology students Hello. We would like to invite all attending the APA convention in Chicago to attend the Student Affiliate Group's (Division 17) Roundtable Discussion program entitled Career Choices in Counseling Psychology. The program will be on Friday, August 15, 9:00 - 9:50am in the Hyatt Regency Chicago, Grand Ballroom E. Below is a description of the program and the participants included. We hope to see you there. The purpose of this program is to give students a chance in an informal setting to speak with Counseling Psychologists in various fields of work about their career paths and choices. We hope that this will allow students to get a firsthand account of how they can reach their own career goals as they work towards their degree. A roundtable discussion consists of many round tables, each one with a different speaker. You can choose which table you would like to participate in. It is an excellent way to get up close to the presenter that is usually not possible in a symposium setting. Come prepared with some questions, that is what the program is all about!!! Participants include the following individuals: Student Affairs and Academics
